Good Afternoon Anthony...

The Westchester Town Center BID was planning on doing several sidewalk repairs, one of which is the one identified below at 8707 Truxton Avenue. (We were waiting on the owner's property manager before starting the work. Now it seems that an inspector has happened on this site and wants a permit pulled asap.) The BID's plan was to use a small contractor for the small job who would mix his concrete on site and not incur partial load premium costs for concrete. Can the BID come down and pull the necessary no-fee permit from you?

Do you just need a map showing the various repair sites? Anything else?

Thanks Anthony.

Don,

Re: 8707 Truxton Ave. Sidewalk repair

Here is the inspector's card for his contact information. As we discussed, he wants a permit pulled before Wednesday 07/27/2011 and the work completed asap; they need to see the dirt compaction before the concrete is poured.
Please let me know if you need anything further from me.

Thank you.
